7 Describe Work / Special Conditions:			

Issuance of this permit allows for periodic on-site inspections during the time of construction until the time a Certificate of Occupancy is issued.

Special Conditions: 1) No aluminum conductors are allowed. All applications of 120 volts or higher require a minimum gauge of #12.
 2) For commercial construction, conduit is required in all accessible locations. Use of BX type cable is limited to 3 wire type in inaccessible locations. Work cannot begin until you have picked up the permit and paid for it.

Notice:

This permit becomes null and void if work or construction authorized is not commenced within 6 months, or if construction or work is suspended or abandoned for a period of 6 months at any time after work has commenced. Once a permit has lapsed, a new permit will need to be applied for and issued to continue work.

I hereby certify that I have read and examined this application and know the same to be true and correct. All provisions of the laws governing this type of work will be complied with whether specified herein or not. The granting of this permit does not presume to give authority to violate or cancel the provisions of any other state or local law regulating construction or the performance of construction.
